

AeroGo Taiwan — Flight Deal Collection

Manila (MNL) ↔ Taipei (TPE) | 19–22 November 2026

Research summary

This document collects actual flight-search results and source evidence. It does not select a package, build an itinerary, research hotels or activities, add agency markup, or create a client quotation.

10	2	4	5
distinct offers collected	sites with usable fare results	sites blocked / no usable exact-date fare	passengers searched

Search date	22 September 2026	Observation time	22 Sep 2026, Asia/Manila session; provider page did not expose a retained minute for every result.
Travelers	4 adults + 1 child aged 12. Agoda classified age 12 as Adult (12 years and above); the other exact search used 4 adults + 1 child where supported.	Cabin	Economy; minimum 7 kg cabin baggage per passenger required.
Search scope	Round trip MNL–TPE–MNL; 19 Nov 2026 outbound, 22 Nov 2026 return; exact airports and dates used.	Price treatment	Prices are flight-search results only. Taxes and mandatory charges are included where the provider said so. No payment was made and no checkout total was claimed.

Websites researched

Usable exact-date results: Agoda Flights and Skyscanner. **No usable exact-date fare:** Cebu Pacific, AirAsia, Scoot, and HK Express. The four no-result explanations appear in the site sections below; no invented options were added to fill the lists.

Evidence rule: Agoda and Skyscanner rows are labeled SEARCH RESULT. Their displayed prices were not described as confirmed checkout totals. The selected exact searches showed five travelers; group inventory can still change before booking.

Cabin-baggage verification

Agoda and Skyscanner exposed a cabin-bag indicator on the listed options. The 7 kg minimum was cross-checked against the applicable carrier policy where available; where the aggregator did not show a fare-family weight line, this report retains the provider badge and separately notes the policy cross-check rather than claiming a checkout-confirmed allowance.

Cebu Pacific results

Official source checked separately. No suitable option was recorded because the booking page did not render.

Website	Status	Observed obstacle / reason no options were recorded
Cebu Pacific https://www.cebupacificair.com/en-PH/	UNAVAILABLE / BLOCKED	Official homepage loaded as a blank white page in the research browser; the booking engine did not render, so no fare was recorded.

Cabin-baggage reference: Cebu Pacific's official fare-bundle help page describes GO Basic as 7 kg hand-carry only. This is a policy reference, not a fare result for the requested dates.

[Official Cebu Pacific fare-bundle policy](#)

AirAsia results

Official exact-date search attempted with 4 adults + 1 child, Economy, MNL–TPE–MNL, 19–22 Nov 2026.

Website	Status	Observed obstacle / reason no options were recorded
AirAsia https://www.airasia.com/v2/flights/search/?origin=MNL&destination=TPE&departDate=19%2F11%2F2026&returnDate=22%2F11%2F2026&tripType=R&adult=4&child=1&infant=0&locale=en-gb&currency=PHP&airlineProfile=k%2Cd%2Cg&type=paired&cabinClass=economy&upsellWidget=true&upsellPremiumFlatbedWidget=true&isOC=false&isDC=true&uce=true&ancillaryAbTest=false&isAirasiaFlightOnly=false&providers=&talDs=&j=cds	UNAVAILABLE / BLOCKED	Exact-date, five-passenger search reached Cloudflare security verification: "Performing security verification... This website uses a security service to protect against malicious bots." No round-trip fare was recorded.

Route-page context observed separately: AirAsia’s public MNL–TPE page exposed date-card content, but the exact round-trip booking search was blocked by Cloudflare. The route-page content was not used as a round-trip five-passenger offer.

[AirAsia route page](#)

[AirAsia Philippines 7 kg cabin-baggage policy](#)

Scoot results

Official MNL–TPE route page checked separately. No exact-date suitable fare card was available to record.

Website	Status	Observed obstacle / reason no options were recorded
Scoot https://www.flyscoot.com/flights/en-ph/flights-from-manila-to-taipei/	UNAVAILABLE / BLOCKED	Official route page was reachable, but no Nov 19–22 exact-date fare was displayed; the public page returned no matching fare cards for the requested date window.

The public route page stated that a Manila–Taipei Economy flight comes with a 10 kg cabin-baggage allowance, but its Nov 2026 date view did not expose a matching fare card for the requested exact dates. No price or flight number was invented.

[Scoot official cabin-baggage policy](#)

HK Express results

Official booking widget checked separately. No suitable exact-date itinerary was recorded.

Website	Status	Observed obstacle / reason no options were recorded
HK Express https://www.hkexpress.com/en	UNAVAILABLE / BLOCKED	Official booking widget opened and accepted the five-adult setup; the route search could not surface a usable MNL–TPE itinerary, so no fare was recorded.

The booking widget was set to Round Trip and five adults (age 12 treated as adult). The origin selector exposed Manila (MNL), but the requested MNL–TPE search did not surface a usable itinerary in the accessible widget. HK Express fare families also differ in cabin-bag treatment: Ultra Lite / Essential may provide only a small personal item, while Lite / Max provide a combined 7 kg allowance; any future fare would need fare-family verification.

[HK Express official carry-on policy](#)

Agoda results

Exact search: MNL to TPE, 19 Nov 2026; return 22 Nov 2026; Economy; 5 adults in Agoda because its passenger rule classifies age 12 as adult.

Agoda displayed round-trip prices per passenger with taxes and fees included, then displayed a total for five passengers after the outbound was selected. The five rows below use one lowest-price outbound (Philippines AirAsia Z2 126) paired with five different return results. All listed rows were direct and carried a Cabin bag badge.

ID	Airline / provider	Outbound schedule	Return schedule	Fare tier / baggage	PHP / pax	Total for 5	Charges / status
AG001	Philippines AirAsia + Cebu Pacific Agoda	Z2 126 19 Nov 16:25–18:40	5J 311 22 Nov 03:15–05:45	Economy; fare name not displayed Cabin bag badge	PHP 13,433	PHP 67,165	Taxes and fees included; no payment fee displayed SEARCH RESULT
AG002	Philippines AirAsia + Cebu Pacific Agoda	Z2 126 19 Nov 16:25–18:40	5J 313 22 Nov 10:20–13:05	Economy; fare name not displayed Cabin bag badge	PHP 13,956	PHP 69,780	Taxes and fees included; +PHP 523 return increment SEARCH RESULT
AG003	Philippines AirAsia + Philippines AirAsia Agoda	Z2 126 19 Nov 16:25–18:40	AirAsia flight no. not displayed 22 Nov 09:45–12:10	Economy; fare name not displayed Cabin bag badge	PHP 15,562	PHP 77,810	Taxes and fees included; +PHP 2,129 return increment SEARCH RESULT

Source and evidence

[Open exact Agoda search URL](#)

Evidence status for every Agoda row: SEARCH RESULT. No customer details, booking confirmation, payment, or checkout total was completed. Flight numbers not exposed by the result card are explicitly marked as not displayed.

Skyscanner results

Exact search: MNL–TPE–MNL, 19–22 Nov 2026, 4 adults + 1 child, Economy, Carry-on bag filter applied.

Skyscanner showed exact-date result cards and a displayed total for five travelers. The rows below are the five lowest distinct suitable result cards observed after applying the Carry-on bag filter. All were direct. The provider UI did not expose flight numbers for these cards, so the report preserves the schedule and marks the flight number as not displayed.

ID	Airline / provider	Outbound schedule	Return schedule	Fare tier / baggage	PHP / pax	Total for 5	Charges / status
SKY01	Philippines AirAsia + Cebu Pacific Skyscanner	AirAsia flight no. not displayed 19 Nov 06:55–09:05	Cebu Pacific flight no. not displayed 22 Nov 10:20–13:05	Economy search result Carry-on included; checked bag not included	PHP 12,546	PHP 62,728	Taxes and charges included in displayed total SEARCH RESULT
SKY02	Cebu Pacific Skyscanner	Flight no. not displayed 19 Nov 06:35–09:05	Flight no. not displayed 22 Nov 10:20–13:05	Economy search result Carry-on included; checked bag not included	PHP 12,968	PHP 64,837	Taxes and charges included in displayed total SEARCH RESULT
SKY03	STARLUX Airlines Skyscanner	Flight no. not displayed 19 Nov 11:50–14:10	Flight no. not displayed 22 Nov 08:15–10:40	Economy search result Carry-on + checked baggage included	PHP 13,489	PHP 67,444	Taxes and charges included in displayed total SEARCH RESULT
SKY04	China Airlines Skyscanner	Flight no. not displayed 19 Nov 10:55–13:05	Flight no. not displayed 22 Nov 14:45–17:05	Economy search result Carry-on + checked baggage included	PHP 13,885	PHP 69,422	Taxes and charges included in displayed total SEARCH RESULT
SKY05	EVA Air Skyscanner	Flight no. not displayed 19 Nov 03:40–06:00	Flight no. not displayed 22 Nov 15:30–17:50	Economy search result Carry-on + checked baggage included	PHP 13,928	PHP 69,640	Taxes and charges included in displayed total SEARCH RESULT

Source and evidence

[Open exact Skyscanner search URL with carry-on filter](#)

Evidence status for every Skyscanner row: SEARCH RESULT. Skyscanner stated that prices include taxes and charges and may change with availability. A supplementary higher-priced provider variant was observed for the same China Airlines schedule via Trip.com, but it was not included in this five-row distinct-offer list because the requested top five were retained.

Consolidated comparison

All 10 distinct suitable offers collected, sorted by displayed total airfare for five passengers.

The five lowest displayed totals are highlighted. This is a comparison of collected offers only, not a recommendation or package decision. Agoda and Skyscanner can show different provider pricing for the same or similar operating flights; the provider is retained in every row.

Rank	ID	Website / airline	Total 5 pax	Per pax	Schedule	Baggage	Evidence

Verification labels used

- SEARCH RESULT — price and schedule were visible on the search-result page; no claim of checkout confirmation.
- BOOKING REVIEW — not used; no customer information was submitted.
- CHECKOUT TOTAL — not used; no booking or payment was made.
- UNAVAILABLE / BLOCKED — exact-date research could not yield a usable fare because the page was blocked, blank, or returned no matching fare card.

Quality-control checks completed: dates are Nov 19–22, 2026; airports are Manila Ninoy Aquino (MNL) and Taipei Taoyuan (TPE); economy cabin was used; the age-12 traveler was treated as adult where the provider required it; the 7 kg cabin-bag requirement was kept visible in every suitable row; checked baggage was not added to fares that did not show it; prices were kept separate from the PHP 27,988 package benchmark.

Screenshot evidence note: browser UI evidence was available during the live research session, including the Skyscanner and Agoda result cards and the AirAsia Cloudflare obstacle. The browser connector did not export those live screenshots as local image files, so this PDF preserves the source URLs, exact search parameters, visible schedules, prices, provider notes, and obstacle text instead of presenting reconstructed screenshots.
