

AeroGo Taiwan - Hotel Deal Collection - Nov 19-22

Accommodation evidence report | Taipei-only and Taichung + Taipei scenarios

Prepared for AeroGo Travel & Tours

Research date: September 22, 2026 (Asia/Manila). Prices and availability are live search observations and may change. No reservations or payments were made.

Research brief

Item	Research finding
Destination	Taiwan: Taipei and Taichung
Dates	Taipei-only: Nov 19-22, 2026 (3 nights). Split: Taichung Nov 19-20 (1 night) + Taipei Nov 20-22 (2 nights).
Guests	4 adults + 1 child age 12 (5 guests total). Child age was entered as 12 where the search engine allowed it.
Room rule	Preferred 3+2: one triple plus one double/twin. Alternative two doubles/twins plus single. All prices below cover the full five-person search party unless explicitly marked unverified.
Currency	Booking.com and Hotels.com displayed PHP. Expedia displayed USD; converted at USD 1 = PHP 62.694, observed Sep 22, 2026. Conversion is for comparison only and is not a provider quote.
Priced records	29 priced offer records: 6 Taipei Booking.com offers, 8 Taichung Booking.com offers, 5 Taipei split-date Booking.com offers, 5 Expedia candidates, and 5 Hotels.com candidates. Google Hotels and official sites were checked for discovery/location context; no additional dated group total was captured.

Website coverage

Website	Coverage	Status
Agoda	Configured Taipei, Nov 19-22, 2 rooms, 4 adults + 1 child age 12. Search redirected to Agoda Activities; no hotel rate recorded.	UNAVAILABLE / BLOCKED
Booking.com	Exact Taipei and Taichung searches; named rooms/beds, taxes, cancellation and totals visible.	SEARCH RESULT
Trip.com	Search returned Beijing results despite Taipei query and did not retain the two-room setup. No Taiwan offer recorded.	UNAVAILABLE / BLOCKED
Expedia	Exact Taipei dates and party in URL/result page; result cards showed total incl. taxes/fees but not room layouts.	SEARCH RESULT - ROOM DETAIL UNVERIFIED
Hotels.com	Exact Taipei dates and party in URL/result page; result cards showed total incl. taxes/fees but not room layouts.	SEARCH RESULT - ROOM DETAIL UNVERIFIED
Google Hotels	Used for deal discovery only; generic Taipei hotel landing page exposed, not a dated five-person quote.	DISCOVERY ONLY
Official sites	Checked selected properties for location and direct-site context. No dated group rate was used without a visible quote.	LOCATION / SOURCE CONTEXT

Verification labels used

SEARCH RESULT means the total was visible on the provider result page. BOOKING REVIEW and CHECKOUT TOTAL were not reached because no booking was made. UNAVAILABLE / BLOCKED means the engine did not return a usable Taiwan hotel result. “Suitable” in the verified tables means the result card itself exposed a five-person accepted search and named enough beds; simultaneous inventory and the hotel's final child-age policy still require confirmation.

Section 2 - Agoda results

Individual website visit: [agoda.com](https://www.agoda.com/)

The Agoda hotel form was configured for Taipei, Nov 19-22, 2026, 2 rooms, 4 adults and 1 child aged 12. On pressing search, the site redirected to an Agoda Activities search page instead of hotel results. No Agoda hotel price, room type, tax total or availability was recorded. This is reported as an obstacle, not as a zero-price result.

<https://www.agoda.com/>

Verification status: UNAVAILABLE / BLOCKED. Screenshot: live browser state was captured during research, but the browser connector did not export a local image file; exact form settings and redirect are preserved above.

Section 3 - Booking.com results: Taipei-only

Exact search: Taipei | Nov 19-22, 2026 | 4 adults + 1 child age 12 | 2 rooms

These are the main verified Taipei-only records. Booking.com result cards explicitly showed 3 nights, 4 adults, 1 child, named room types and beds, and “includes taxes and fees.”

Section 4 - Booking.com results: Taichung one-night options

Exact search: Taichung | Nov 19-20, 2026 | 4 adults + 1 child age 12 | 2 rooms

These offers are the Taichung leg for Scenario B. All cards showed 1 night, 4 adults, 1 child and included taxes and fees. Most expose the preferred 3+2 layout. Hotel Leisure is retained as a cheaper nontraditional option because one bed is in a mixed dormitory room.

Section 5 - Booking.com results: Taipei two-night options

Exact search: Taipei | Nov 20-22, 2026 | 4 adults + 1 child age 12 | 2 rooms

These offers are the Taipei leg for Scenario B. They are not the same stay dates as the Taipei-only search, so they are kept as separate offer records.

Section 6 - Trip.com results

Individual website visit: trip.com

The Trip.com search URL carried Taipei, Nov 19-22, 2026, 4 adults, 1 child age 12 and room quantity 2, but the page returned Beijing Hotels. The visible traveler control also displayed 1 room. Because the destination and room allocation were wrong, no Trip.com Taiwan offer was recorded.

<https://www.trip.com/hotels/>

Verification status: UNAVAILABLE / BLOCKED. This section intentionally contains no invented hotel names or prices.

Section 7 - Expedia results

Exact Taipei search page; provider currency USD

Expedia returned exact Nov 19-22 dates and a 5-traveler query in the URL. The visible result cards displayed totals with taxes and fees, but they did not expose the room type or bed configuration. Some cards said “for 2 rooms,” while the visible traveler control showed 1 room. These are retained as deal-discovery candidates only and are not counted as suitable verified offers.

ID	Property	Area	Score	Provider total	PHP equiv.	Terms / stock signal	Status

<https://www.expedia.com/Hotel-Search?checkIn=2026-11-19&checkOut=2026-11-22&childAges=12&rooms=2&destination=Taipei%2C+Taiwan>

Currency conversion source: USD/PHP close 62.694 on Sep 22, 2026. Expedia totals were shown as total with taxes and fees. No payment or checkout was performed.

Section 8 - Hotels.com results

Exact Taipei search page; provider currency PHP

Hotels.com returned exact Nov 19-22 dates and “includes taxes & fees.” The URL carried 2 rooms, but the visible traveler control displayed 1 room, and result cards did not show room types or beds. These are therefore unverified candidates, not suitable five-person offers. New May Flower is kept for completeness despite its lower 6.4 score; it should not be treated as a quality recommendation.

Section 9 - Useful official hotel websites and Google Hotels discovery

No official-site dated five-person rate was used unless a rate and full room arrangement were visible. The links below are source context for location, property identity, and direct-rate follow-up.

Property / source	City / area	Evidence context	URL
Finders Hotel Fu Qian	Taipei / Zhongzheng	Official page describes a central themed hotel; search snippet says about 5 minutes from MRT.	https://fuqian.findershotel.com/en
KDM Hotel	Taipei / Daan	Official page says next to Zhongxiao Xinsheng MRT Exit 3; useful location verification for TP05 / TPB04.	https://www.kdmhotel.com.tw/?lang=en
Twinstar Hotel	Taichung / East	Official page says 1 minute walk from the new Taichung train station and lists double, triple and family room types.	https://twinstar.etaichung.com.tw/en
Airline Inn Green Park Way	Taichung / West	Official page describes a central West District base within walking distance of attractions.	https://www.airlineinn.com/GPW/en/
Google Hotels landing page	Taipei City	Used for deal discovery and property cross-checking; no dated 5-guest quote captured in this run.	https://www.google.com/travel/hotels/landingpage/taipei-city-hotels

Direct-site prices are not interchangeable with the Booking.com rates above. Any direct booking should be rechecked for the exact dates, the 12-year-old classification, and the two-room or family-suite allocation.

Section 10 - Taipei-only comparison

Three consecutive nights at one Taipei property; sorted by total price for all five guests

The verified ranking below uses Booking.com room-level results only. Expedia and Hotels.com candidates are intentionally excluded from this suitable ranking because their result cards did not show the rooms and beds needed for five travelers.

ID	Property	Total 3N	Rooms	Beds	Location	Score	Evidence
TP01	UrbanAbode2-DUGU	38337	1 studio	Superior Studio: 3 beds (2 queens + 1 sofa bed)	150 m from downtown; Subway Access	9.0 / 1,163	SEARCH RESULT
TP02	Finders Hotel-Fu Qian	39442	2 rooms	2 x Standard Double, 2 full beds each (4 beds)	0.6 km from downtown; Subway Access	8.2 / 3,584	SEARCH RESULT
TP03	Artinn Taipei Station	41287	2 rooms	Double: 1 queen + Triple: 1 twin + 1 queen	0.5 km from downtown; Subway Access	7.8 / 4,068	SEARCH RESULT
TP04	lfinn Hotel	42148	2 rooms	Executive Suite: 1 queen + Superior Family: 2 queens	1.6 km from downtown; Subway Access	7.9 / 1,478	SEARCH RESULT
TP05	KDM Hotel	45094	2 rooms	Business Double: 1 full + Triple: 1 twin + 1 full	1.7 km from downtown; Subway Access	8.0 / 1,140	SEARCH RESULT
TP06	Golden Garden Hotel	45284	2 rooms	Double: 1 full + Executive Triple: 1 twin + 1 full	4.6 km from downtown; Subway Access	8.2 / 1,410	SEARCH RESULT

All six Taipei-only offers above are Booking.com search-result totals including taxes and fees. They are not checkout totals. Group availability was visible in the search result, but no payment or final booking review was entered.

Section 11 - Scenario B combined accommodation costs

Taichung Nov 19-20 + Taipei Nov 20-22; no intercity transport included

The combinations below add the exact Booking.com result totals for two separate searches. They show accommodation cost only. Each component is priced for 4 adults + 1 child age 12 and includes the required rooms displayed by the provider. "Combination" does not mean a recommendation.

The full pair table retains 25 combinations from the five lowest priced Taichung and five lowest priced Taipei split-date offers. It is a cost comparison only; it does not assess the convenience of changing hotels.

Quality-control checklist

Check	Finding
Dates	All retained search URLs use Nov 19-22, 2026 for Taipei-only or the correct Nov 19-20 / Nov 20-22 split.
Guests and child	4 adults + 1 child aged 12. Agoda and the Booking.com searches accepted the age value; Hotels.com and Expedia URLs carried child age 12, though their visible room controls were inconsistent.
Beds and occupancy	Booking.com result cards expose named beds and accepted the group search. UrbanAbo2 and some Run of House / sofa-bed or nontraditional dorm results still require property-level confirmation.
Taxes and fees	Booking.com and Hotels.com visibly stated taxes and fees included. Expedia cards stated total with taxes and fees. No extra mandatory fee was added when not shown.
Screenshots	Live browser states were inspected and transcribed. The browser connector did not provide local screenshot exports for embedding, so URLs and exact card text are the supporting evidence.
Scope	No flights, itinerary, activities, intercity transport, package, agency markup, client quote, booking, payment, or hotel contact was performed.

End of hotel deal collection. Further action required before purchase: reopen the shortlisted room pages, verify simultaneous availability, confirm the 12-year-old occupancy rule, and confirm any property taxes or city fees payable locally.
