Transportation Deal Collection

November 19-22, 2026

Research scope

Actual published fares, schedules, route evidence and practical alternatives for 5 passengers: 4 adults plus 1 traveler aged 12. Airport: Taipei Taoyuan International Airport (TPE). Evidence collection only; no transportation, itinerary or package was selected.

Prepared for AeroGo Travel & Tours

Observed September 22, 2026. Philippine peso conversions use TWD 1 = PHP 1.9787 and USD 1 = PHP 62.694. These are reference conversions only.

1. Research summary and website coverage

Official operators were checked first, followed by separate Klook, KKday and Trip.com transport pages. GetYourGuide and Viator were used only where transport-inclusive products exposed genuine prices.

Passenger and age rule

The 12-year-old is treated as an adult unless a cited provider expressly defines a child category including the traveler. THSR and UBus references define child discounts as under 12; Taipei bus rules are height/under-12 based.

Check	Finding
Travel period	19-22 Nov 2026; date-specific inventory is not open/exposed for every provider.
Airport	TPE; both T1/T2 are served unless a product says otherwise.
Passengers	4 adults + 1 age-12 traveler = 5 full-fare references.
Arrival leads	06:35, 06:55 and 16:25 on Nov 19. MRT is not 24 hours.
Return leads	03:15, 08:15, 10:20, 14:45 and 15:30 on Nov 22.
Official coverage	Airport MRT, Taipei MRT/bus, THSR, TRA, UBus, Taichung buses, Tourist Shuttle, 6670 and lake buses.
Platform coverage	Klook, KKday, Trip.com, plus shared product references on GetYourGuide and Viator.
Blocked / not exposed	Some pages exposed route/vehicle but not a date-specific checkout price; marked honestly.

Evidence status key

OFFICIAL = operator page or fare rule. SEARCH = provider listing, not checkout. PUBLISHED REF. = reference needing date/product reconfirmation. INCOMPLETE / NOT EXPOSED = route found but complete group price was not visible. No booking or payment was made.

2. Airport to Taipei

3. Taipei to airport, including early flights

The 03:15 flight is a special constraint. The accessible evidence does not establish a normal public-transport departure early enough, so private transport or a specifically confirmed overnight service remains the practical category.

Options sorted by total published/reference cost

ID / type	Route or service	Schedule / duration	Fare / 5-person cost	Timing, baggage and caveats	Status
TA01 TRANSPORT ONLY - MRT	A1 Taipei Main -> TPE T1/T2	First Express about 05:30; 35-39 min	NT\$ 160 / PHP 317 x 5 = NT\$ 800 / PHP 1,583	No for 03:15. Borderline for 08:15 against 2-3h airport buffer; practical for later flights.	OFFICIAL

Early-return compatibility matrix

Flight	MRT first about 05:30	1960 first 04:40	1819 / other bus	Private	Conclusion
03:15	NO	NO	Not confirmed	YES	Public transport not evidenced early enough.
08:15	Borderline	Potentially	Potentially	YES	Hotel-stop access and exact date needed.
10:20	YES	YES	YES	YES	All categories workable after timetable check.
14:45 / 15:30	YES	YES	YES	YES	Normal daytime options.

Airport buffer caution

Official Airport MRT guidance recommends about 2-3 hours before departure for airport processing. This report therefore calls 08:15 borderline from a central station and does not call MRT suitable for 03:15.

4. Airport to Taichung

These are complete or clearly bounded airport-to-Taichung alternatives. Final hotel transfers are outside scope.

6. Taipei city transportation

Independent destination references only. Ordinary MRT fares depend on origin; the range is a fare reference, not a quote from a specific hotel.

Shopping-stop rule

Core transport options have no shopping presentation requirement in cited operator terms. The shared sightseeing listings showed attraction stops rather than mandatory retail stops, but exact voucher itineraries still require verification.

8. Taichung transportation

Transport references for the requested Taichung attractions only. No multi-stop route is designed.

Do not double-count

A transport-inclusive tour or activity bundle may already include vehicle transport and some admissions. The labels separate transport-only, transport + attraction, guided shared tour and private vehicle.

11. Shared versus private transportation comparisons

Decision aid only; no final mode is selected. Private capacity is treated conservatively for five travelers plus luggage.

Use case	Public reference	Shared reference	Private reference	Trade-off
TPE -> Taipei	Airport MRT NT\$160/person	Klook 1961 US\$3.55/person	KKday 9-seater TWD1,005 / Trip 7-seater US\$54.77	Public cheapest; private direct.
TPE -> Taichung	MRT + THSR NT\$1,045/person	Klook 1623 US\$12.45/person	Trip TWD3,033 reference	Direct bus simpler; rail segment complete.
Taichung -> Taipei	UBus NT\$310/person	No separate shared price	Private not exposed	THSR faster, expensive.
Northern sights	Shuttle/TRA route fare	US\$16.90-35/person	Not exposed	Tours bundle stops; verify itinerary.
Taichung -> SML	6670B NT\$83-85/person	GYG US\$15/person	Not exposed	Public cheapest; shuttle simpler.

Private-capacity note: the accessible KKday airport page states some 5-seater variants have maximum passenger limits below five. This report therefore uses 7/9-seater references where visible and does not assume a sedan carries 5 travelers plus luggage.

12. Complete price and schedule tables

This consolidated index retains the collected IDs and main price evidence. Incomplete fares remain visible at the end of the relevant group.

Verification notes

1. Official operator pages are preferred for fare rules, first/last trains and route definitions. Recheck exact Nov 2026 schedules before use.
2. A displayed platform price is a SEARCH result, not a confirmed checkout total. No booking or payment was made, and group availability was not assumed where only a per-person or starting price was visible.
3. PHP conversions use TWD 1 = PHP 1.9787 and USD 1 = PHP 62.694 as reference rates observed September 22, 2026. Provider FX, card fees and spreads are excluded.
4. Airport products may require terminal selection. T1 and T2 are both served by Airport MRT and airport buses; supplied flight leads did not specify terminal.
5. The age-12 traveler is counted as adult in all group totals unless provider proof says otherwise.
6. Attraction admissions, hotel transfers and intercity transport outside the named journey are excluded unless the row says transport + attraction or shuttle bundle.
7. No core transport-only option includes a mandatory shopping stop. The Northern Coast/Queen pass is flagged because it includes a merchant coupon. Shared tour exact voucher terms still need checking.

Hand-off checklist for later analysis

Recheck item	Why it matters	Relevant IDs
Exact Nov 19-22 timetable	Airport MRT/bus and Tourist Shuttle schedules can change by date or weekday.	AT01-AT04, TA01-TA04, NT01-NT05
03:15 and 08:15 return flights	03:15 has no public service evidenced early enough; 08:15 is buffer-sensitive.	TA01-TA05
Age-12 fare rule	Most cited concessions end before age 12.	All per-person options
Five-person vehicle capacity	A standard 5-seater may not meet passenger plus luggage limits.	AT05-AT06, AC04-AC05
Date-specific checkout price	Platform prices are search results or starting prices until selected and reviewed.	Klook, KKday, Trip.com rows
Final hotel-to-stop legs	Most station/bus options stop at a hub, not the hotel.	AC01-AC03, CT01-CT04, LOCAL rows

Research conclusion

The report preserves public, shared and private alternatives for both accommodation scenarios without selecting a mode, flight, hotel or attraction. The main unresolved items for later verification are exact November 2026 timetables, date-specific platform checkout totals, and private vehicle capacity/luggage confirmation.
